

Controlling fixed assets with ease

DO YOU KNOW?

- What fixed assets your company owns and where those assets are located?
- How much time is your company using to search for items in a week?
- How much unclear fixed asset management processes and poor decision making in capex investment can cost for your company?

We offer solution to manage fixed assets (equipment, tools and other consumables) with ease in one place allowing time saving and effort

Inventory Services

Our physical inventory services provide customers support and accurate inventory valuations. We also help customers to sell surplus fixed assets.

Consulting Services

We provide expertise in the development and maintenance of lean fixed asset management processes.

Solvoapp

Easy to use cloud based fixed asset management software automates tracking, reporting and the management of fixed assets.
